

SECRET/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8819

SESSION NUMBER: 2

DATE OF SESSION: 16 NOV 88

DATE OF REPORT: 16 NOV 88

START: 1356

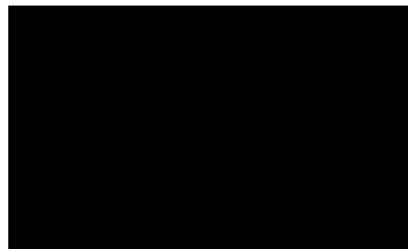

END: 1415

METHODOLOGY: CRV

VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: Describe the general mission of the site and the specific activities/personnel/equipment of each target area.
2. (S/NF/SK) VIEWER TASKING: Coordinates and, in Stage 4, instructions to turn attention to [Area A].
3. (S/NF/SK) COMMENTS: Excellent Stage 1 contact; uncommon for 018. The viewer was informed that this site would be worked daily--perhaps twice a day--for very short sessions, but that a session summary would be required directly afterwards. The monitor's objective is to gather a great deal of target data, while maintaining the viewer's interest over the (anticipated lengthy) course of the project.
4. (S/NF/SK) EVALUATION: []

1. (S/NF/SK) Statistics: Viewer: 018
 Session date: 16 NOV 88
 Start time: 1356
 End time: 1415
 Mode of operation: CRV
 PI: none
 AV: none

2. (S/NF/SK) Cuing: 6-digit encrypted coordinates:
 696910/136160.

3. (S/NF/SK) Tasking: Access and describe Area A.

4. (S/NF/SK) Results:

a. The general site appears to be a complex of identical structures (see sketch, page 2).

b. The interior of (a) structure is large (a single, multi-storied room) in which there is a lot of noisy activity. The activity and associated objects, however, are small in relation to the room, and are all at floor level. (see sketch, page 3).

c. The activity involves people and boxes. It appears that they are either putting things into the boxes or taking them out (direction of activity not yet determined).

d. Accessing a single person, I found a person standing at a table on which sat a cardboard box. The person had his hands on an object in the box. Behind him was a low row of rollers, on which "handlable-sized" objects of various shapes lay (see sketch, page 4).
